GUIDE TO

GILMAN (ALFRED G.) COLLECTION

ARCHIVES

LIBRARY, UNIV. OF TEXAS SOUTHWESTERN MEDICAL CENTER, DALLAS

As of 12-3-12

SCOPE AND CONTENT:

The collection consists of documents and photographs created or collected by Alfred Goodman Gilman, M.D., Ph.D. Contents include correspondence, printed materials by and about Dr. Gilman, photographs, certificates, illustrations and autographed copies of the textbook *Pharmacological Basis of Therapeutics,* the first through the tenth editions (1941 to 2001). Dr. Gilman edited the book beginning with the 6th edition (1980) and ending with the tenth edition (2001). The collection also contains textbook-related correspondence and documents as well as biographical information of the book's original coauthor, Dr. A.G. Gilman's father, Alfred Gilman, Ph.D. (born 1908, died 1984). Also included is a small amount of information (e.g., a DVD interview, an obituary) about the original book's other co-author, Louis S. Goodman, M.A., M.D. (born 1906, died 2000).

BIOGRAPHICAL NOTE:

Alfred Goodman Gilman was born July 1, 1941 in New Haven, Connecticut. He received his joint M.D. degree in 1969 from Case Western Reserve University School of Medicine and his Ph.D. in pharmacology the same year from Case Western Reserve. From 1969 to 1971, he was Pharmacology Research Associate at the Laboratory of Biochemical Genetics, National Heart and Lung Institute. From 1971 to 1980, he taught at the University of Virginia. In 1981, he came to the University of Texas Southwestern Medical Center as Chairman of Pharmacology, later serving as Dean of the Medical School and Executive Vice President for Academic Affairs and Provost. In 1994, he shared the Nobel Prize in Physiology or Medicine for his research on G Proteins, which play crucial roles in normal cellular function and in disease. In 2009, he became the Chief Scientific Officer of the Cancer Prevention and Research Institute of Texas, a position he held until 2012. As mentioned above, he was an editor of the widely-used textbook *Pharmacological Basis of Therapeutics* (of which his father had been an original co-author), from the sixth edition (1980) to the tenth edition (2001).
