

USING EJOURNALS A TO Z

EJournals A to Z provides access to the full text of all the Library's electronic journal subscriptions in a single place.

Use E journals A to Z when you:

- Want to search for a particular journal
- Find a specific article for which you already have the citation

To use E journals A to Z:

1. Go to the Library's E journals A to Z web page.

The screenshot shows the E journals A to Z website interface. At the top, there are navigation links: Search Ebooks in Catalog, Top E journals, Interlibrary Loan (ILLiad), FAQ/Tutorials, Ask Us, Preferences, and Language. The main header features the 'EJOURNALS A TO Z' logo. Below the header is a search bar with the text 'Nuclear Med' and a 'Search' button. A dropdown menu is open, displaying a list of journal titles related to nuclear medicine, such as 'Nuclear medical and imaging sciences (NMIS)', 'European Journal of Nuclear Medicine and Molecular Imaging', and 'The Journal of Nuclear Medicine: JNM'. Below the search bar is a 'Browse by Discipline' section with a grid of links to various subject areas and their respective resource counts.

2. Start typing a keyword in the journal title. It will start to auto-populate with the top 10 most popular findings that match this word(s) from the Library's e journal collection. If you don't see it in the pull-down menu, click the blue "Search" button for all the listings matching this.
3. Scroll down until you find the journal you want.

The Library frequently has subscriptions from multiple sources.

Choose the link that contains the year of the article you need.

A Full Text Delay (a.k.a embargo) means the publisher has placed a specific time restriction on access to a journal's issue.

If the only option is a "Full Text Delay" article, try your Library's [Interlibrary Loan \(ILLiad\) Service](#) to obtain it.
