

IMPACT FACTORS

Impact Factors identify the frequency with which an average article from a journal is cited in a particular year. You can use this number to evaluate or compare a journal's relative importance to others in the same field or see how frequently articles are cited to determine potential publication targets.

1. To access the Impact Factors database (i.e., Journal Citation Reports), click on “JCR Impact Factors” under “Quick Links” on the Library’s home page.
2. To locate the Impact Factor of a particular journal, select “Search for a specific journal” and click SUBMIT.
