After you have found a title, click on the Download Offline link beneath the title entry. You will then receive a prompt to sign in to your EBSCOhost account. Sign in using your username and password.

Upon signing in to your account, select your checkout period and download the ebook.

Finally, you will see a prompt (at the bottom of the screen) that will ask if you would like to open or save an URLLink.ascm file. Choose either Open to immediately open the ebook in Adobe Digital Editions or Save to access it later.
