

## OVERVIEW OF THE COLLECTION

**Title:** Alfred Goodman Gilman Collection

**Dates:** 1947 - 2012

**Extent:** 12 linear feet, archival materials  
2 linear feet, slide binders  
2.2 linear feet, books  
18 framed items

**Creator/Collector:** Alfred Goodman Gilman

**Acquisition info:** Gift of Alfred Goodman Gilman, December 2012

**Repository:** UT Southwestern Archives, Health Sciences Digital Library and Learning Center, UT Southwestern Medical Center, 5323 Harry Hines Blvd, Dallas, TX 75390-9049, [archives@utsouthwestern.edu](mailto:archives@utsouthwestern.edu)

## RIGHTS & ACCESS

**Access Restrictions:** Materials are to be used under supervision of the Archives staff. Certain records will require screening by the archivist before the researcher may be allowed to review them. The archives will consider requests for duplication of materials on a case-by-case basis. Exceptions to these access restrictions require approval of the archivist.

**Publication Rights:** Copyright for official University records is held by UT Southwestern Medical Center; all other copyright is retained by the authors of items in these papers, or their descendants, as stipulated by United States copyright law.

**Preferred Citation:** [Identification of item], Alfred Goodman Gilman Collection, UT Southwestern Archives

### **Related Archival Materials:**

[Alfred Goodman Gilman, biographical materials]. 1975. 1 folder. Ebling Library. University of Wisconsin-Madison

[Nobel Prize related materials]. UTSW News and Publications Collection. UT Southwestern Archives. [http://library.utsouthwestern.edu/speccol/archives/guideNP\\_Print.pdf](http://library.utsouthwestern.edu/speccol/archives/guideNP_Print.pdf)

### **Related Published Materials:**

*Goodman & Gilman's The Pharmacological Basis of Therapeutics* (1<sup>st</sup> thru 10<sup>th</sup> editions)  
Call Number: QV 4 G653P  
Catalog Link: <http://utswm.bywatersolutions.com/>

**Processing Notes:** To reflect Dr. Gilman's filing system, the original folder titles have been largely maintained "as is", with some corrections made for clarity. Folders containing correspondence and/or documents with private/confidential/sensitive information are marked with a "\*". The papers of Alfred Zack Gilman and Louis Sanford Goodman, which were also donated by Dr. Alfred G. Gilman, are being re-processed into separate finding aids. This collection was re-processed by Cathy Miller in August 2016.

**SCOPE AND CONTENT:**

Dr. Gilman's collection include correspondence, printed materials by and about Dr. Gilman, photographs, honors and awards, framed photographs, diplomas, and certificates, and autographed copies and correspondence related to the textbook *Pharmacological Basis of Therapeutics*. Records documenting Dr. Gilman's work editing *Pharmacological Basis of Therapeutics* highlight the many tasks that go into compiling, editing, and publishing a textbook. The correspondence in this collection covers a variety of topics concerning Dr. Gilman's research interests and participation in scientific and academic organizations. Dr. Gilman's engagement with the academic scientific community is documented through his voluminous correspondence with professional colleagues in the medical and scientific fields. There is extensive paperwork reflecting the grants that Gilman applied for in conducting his research into adenylate cyclase and G proteins and the role of cyclic AMP and GMP in neurons and glia. The record series highlighting records of Dr. Gilman's research and teaching provide insight into how Dr. Gilman approached conducting research and educating medical students. The records in this collection provide a picture of Dr. Gilman's multitudinous roles as a UT Southwestern faculty member, scientist, researcher, textbook editor, Nobel Prize winner, and as a leader in the scientific community.

**BIOGRAPHICAL NOTE:**

Alfred Goodman Gilman (1941-2015) was born July 1, 1941, in New Haven, Connecticut. He graduated from Yale University in 1962 with his bachelor of science in biochemistry and received his MD/PhD degree in 1969 from Case Western Reserve University. From 1969 to 1971, he was Pharmacology Research Associate at the Laboratory of Biochemical Genetics at the National Institutes of Health. From 1971 to 1980, he taught at the University of Virginia. In 1981, he came to UT Southwestern (then known as The University of Texas Health Science Center at Dallas) as Chairman of Pharmacology and later served as Dean of the Medical School and Executive Vice President for Academic Affairs and Provost. Dr. Gilman received many awards and honors throughout his career, including the Canada Gairdner International Award (1984), the Lasker Basic Medical Research Award (1989), and election to the National Academy of Sciences (1985), American Academy of Arts and Sciences (1988), and the National Academy of Medicine (1989). He shared the 1994 Nobel Prize in Physiology or Medicine for his research on G proteins, which play crucial roles in normal cellular function and in disease. Dr. Gilman was an editor of the widely-used textbook *Pharmacological Basis of Therapeutics*—which his father had originally co-authored—from the sixth edition (1980) to the tenth edition (2001). In 2009, he became the Chief Scientific Officer of the Cancer Prevention and Research Institute of Texas (CPRIT), a position he held until 2012. Dr. Gilman died on December 23, 2015.
